Midvale At A Glance

International Baccalaureate Primary Years Programme World School

Dear Midvale Families,

We are counting down the hours as we look forward to a fun filled evening on Friday, August 18, 2017. Please join us as we officially recognize Midvale Elementary School as an AdvancED STEM and International Baccalaureate Primary Years Program certified school. Bring your blanket and dinner and come meet our new families. Don't forget to rekindle your relationships with our returning families as well.

If cooking is not an option, don't fret, we have a wonderful solution. We are lucky to have Louisiana Food Truck on board. You can purchase Cajun style food items or chicken / hotdog baskets from the Food Truck. Either way, we can meet your dinner needs.

Last, but not least, come and take part in our school-wide STEM challenge. This week our boys and girls have been implementing the engineering design process to create a new IB/Stem Logo for Midvale Elementary School. Come and help us choose our new logo.

We look forwarding to having you help us make history. See you on Friday!!

Thanks for your continued support.

Debbie Satterfield
Principal

Dates To Remember
